**ANNUAL 47 C.F.R. § 64.2009(e) OFFICER'S CERTIFICATION OF
CUSTOMER PROPRIETARY NETWORK INFORMATION (CPNI) COMPLIANCE**

EB Docket 06-36

Annual 64.2009(e) CPNI Certification for Calendar Year: 2007

Name of company covered by this certification: The Ultimate Connection, Inc. dba Daystar Communications

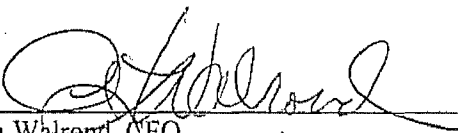

Form 499 Filer ID: 820966

Name of signatory: Alan Walrond

Title of signatory: Chief Financial Officer (CFO)

I, Alan Walrond, certify and state that:

1. I am the CFO of The Ultimate Connection, Inc. dba Daystar Communications ("Daystar") and, acting as an agent of the company, I have personal knowledge of Daystar's operating procedures as they relate to CPNI, and the Rules and Regulations of the Federal Communications Commission regarding CPNI.
2. I hereby certify that, to the best of my knowledge, information and belief, Daystar's operating procedures are adequate to ensure compliance with its CPNI obligations pursuant to Section 222 of the Communications Act of 1934, as amended, and the Commission's rules found at 47 CFR Subpart U.
3. Attached to this certification as Exhibit A is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

Alan Walrond, CFO

2/27/08

Date

Exhibit A
Statement of CPNI Procedures and Compliance

The Ultimate Connection, Inc. d/b/a Daystar Communications

Statement of CPNI Procedures and Compliance

The Ultimate Connection, Inc. d/b/a Daystar Communications (“Daystar” or “the Company”) does not use or permit access to CPNI to market any telecommunications or non-telecommunications services and has trained its personnel that they are not to use CPNI for marketing purposes. Should Daystar elect to use CPNI in future marketing efforts, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

As set forth below, Daystar has processes and procedures in place to safeguard its customers’ CPNI, including call detail information, from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI.

Daystar has instituted procedures to safeguard the disclosure of call detail over the telephone and all employees are trained to follow these procedures. Under these procedures, the Company does not disclose CPNI over the telephone in response to a customer-initiated telephone inquiry, unless the customer can provide the call detail information that is the subject of the inquiry without the assistance of a customer service representative or the customer has previously established and is able to provide a password. Customers who wish to access call detail records via telephone create customer-selected passwords at the time they initially establish service with Daystar when their identity is easily authenticated. If a customer does not select a password at the time their account is created, but subsequently wishes to obtain a password in order to access their call detail information over the telephone, the Company will authenticate the customer’s identity without the use of readily available biographical information or account information. Passwords assigned after December 8, 2007, do not rely on readily available biographical information or account information. If the customer either does not have a pre-established password or cannot provide the correct password, the Company will not provide call detail information over the telephone, but will instead send the requested information to the customer’s address of record.

If a customer loses or forgets their password, the Company will re-authenticate the customer’s identity by requiring the customer to send a letter on the customer’s company letterhead (the Company serves only business customers) signed by a company representative who has previously been identified as an authorized representative to obtain or discuss information regarding the company’s telephone service with Daystar. Daystar will then mail the password to the customer’s address of record.

Daystar notifies customers whenever a password or address of record is created or changed without revealing the changed information or sending the notification to the new account information. Specifically, Daystar sends a notice to the customer’s address of record informing the customer that such account changes have been made.

Daystar does not disclose CPNI on-line. If it elects to do so in the future, it will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

Daystar does not have any retail locations and therefore does not disclose CPNI in-store.

The Company has procedures in place to notify law enforcement in the event of a breach of customers' CPNI and to ensure that the affected customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement.

The Company has not had any breaches of its customers' CPNI during the past year, but does have processes in place to ensure that it maintains electronic records of any breaches that are discovered and of notifications made to the USSS and the FBI, as well as to customers.

Daystar has not taken any actions against data brokers in the last year and did not receive any customer complaints about the unauthorized release or disclosure of CPNI in calendar year 2007.

Daystar has not developed any information with respect to the processes pretexters are using to attempt to access CPNI, but does take steps to protect CPNI from pretexters as described in this Statement.
